

## A Patient's Guide To Questions You May Want To Ask Your Doctor

**Thank you for your interest in the Spiration™ Valve System.** Below are some questions to start your discussion with your doctor about the Spiration Valve and if you might be a candidate for this procedure:

- What are Spiration Valves?
- How do I know if I am a candidate?
- Who will be evaluating me for this procedure?
- What tests are necessary prior to this procedure?
- Will my insurance cover the cost of this procedure?
- How long will I stay in the hospital for this procedure?
- How long does the procedure typically take?
- What can I expect after receiving the valves?
- Will I be able to use less oxygen after the procedure?
- Who will follow up with me after having this procedure?

Remember, your health journey is unique, and open communication is key. Consider bringing this list with you to your next appointment and take the time to discuss your treatment goals and concerns with your pulmonary doctors.
